## SKI RESORT DESCRIPTION

La Molina is synonym of snow, history and fun for all ages. Pioneer in winter sports, our resort was the first of the Spanish Nation to install a ski lift in 1943. Seventy years later, La Molina has become a modern and innovative resort, which has a wide variety of sports and leisure activities to satisfy all tastes.

As a host of major events, a long tradition in high international competitions guarantees the quality of the slopes as well as the facilities of La Molina. Skiers and snowboarders enjoy 68 kilometers of ski domain, divided into 63 slopes for all levels, a snowpark in Tramolí zone and a boardercross and the biggest half pipe in the Pyrenees, in Alabau zone.

In La Molina you can get the best out of yourself, whether you are skier, snowboarder, whether a professional or a beginner. Age doesn't matter either. What it really matter is the sensation the snow gives you.

For those who don't ski, the resort also offers a large number of snow activities, as well as a wide gastronomic and accommodation offer. This offer is located in the very unique region of La Cerdanya, where La Molina is an emblematic reference.

## SKI RESORT SERVICES (close to the slopes)

Ski schools, adaptive sports centre, bars, restaurants, ticket offices, information and booking centre, parking lots, ski rental and ski rental for disabled people, clothes rental, bus service within the train station to the ski resort, children's area, snow park, medical centre and automatic teller machine.
